WELCOME TO WWW.EMCOMP-INTERNATIONAL.COM

A cookie is a small text file which the website you visit saves on your computer. Cookies are used on many websites to give visitors access to various functions. The information in the cookies is possible to be used to monitor a user's surfing. There are two types of cookies, cookies and session cookies.

Cookies saves a file for a longer time on your computer. It is used for functions that tell you what is new since the user last visited the web site.

Session cookies are used during the time you are surfing on a page and are temporarily stored in your computer's memory to keep track of what language you have chosen. Session cookies disappear when you close your browser.

The following cookies are used by www.emcomp-international.com

A session cookie that identifies the session between client and server, as well as a cookie gathering statistics how visitors navigate the website. The latter is called Google Analytics.

If you want to turn off the use of cookies, do it in your browser settings.
